Event Name:	INDEPENDENCE DAY
Date:	15th AUGUST 2023
Time:	7.00 am to 11.00am

Programme Summary/Details:

The Independence Day event held in our college on 15th august 2023 was a vibrant celebration of patriotism and unity. With great fervor and enthusiasm, students and faculty gathered to commemorate the historic occasion of India's independence. The event commenced with the hoisting of the national flag, followed by singing the national anthem, which echoed through the campus, instilling a sense of pride and reverence. Various cultural performances such as dance, music, and skits were showcased, depicting the rich diversity and heritage of our nation. Inspirational speeches by faculty members and guest speakers emphasized the significance of freedom, unity, and the responsibilities that come with it. Additionally, students participated in activities like patriotic poem recitations and essay competitions, further fostering a spirit of national pride and awareness. The event served as a reminder of the sacrifices made by our freedom fighters and reinforced the commitment to upholding the values enshrined in the Indian constitution. Overall, it was a memorable and uplifting celebration that strengthened the bond of fraternity and patriotism within the college community.

Event Name:	BEACH CLEANING DRIVE
Date:	16th September 2023
Time:	7.00 am to 11.00pm

Programme Summary/Details:

NSS volunteers of VIVA Institute of Technology successfully completed Beach Cleaning event held at Uttan Beach (Bhyander west) on 16th September 2023. There were 50 volunteers present for the event. The cleaning was conducted from 7:30 AM to 10:30 AM. The volunteers were instructed to reach Bhyander Railway Station at 6:45 AM and from thereon the volunteers reached the location by rickshaw within 20 minutes. A major amount of waste that was collected from the cleaning consisted of polythene bags, food wrappers and glass bottles. Different types of waste that were abandoned, dumped and buried deep into the sands were carefully removed, handled and properly collected by the volunteers. Some of these wastes were very difficult to remove indicating the long period of time for which the waste was buried into the sand. The polythene bags that, at the first instance, looked easy to remove from the surface itself, was actually just 5% of what was entirely and deep-footedly buried. Unfortunately, wastes like these could not be fully removed, given the depth at which they had sunk into the sand. Instances like these made the volunteers even more aware of the dire fact that beach cleaning was a very important need of the hour. The volunteers were happy to participate in an event like this and were looking forward to working for more such events.
